2001 Dodge Neon Check engine light. SJKELLEY, MEMBER, 2001 DODGE NEON. 2001 Dodge Neon 90,000 miles. The "check engine" light came on my 2001 Dodge Neon the other day. The car is working fine, no problems starting, stopping, or driving. The engine light is not flashing, but the color is orange, almost red. I have lost my owners manual, so I don't know if a serious problem on a Neon is indicated by a flashing light or a red one.

The number one reason that your Neon would have low oil pressure would be a lack of oil. The first thing you should do, is check your engine oil level. If the engine oil level appears to be low (or empty), you'll need to fill it up. Do not drive a vehicle with low engine oil to the store to buy more oil.

The Chrysler 1.8, 2.0, and 2.4 are inline-4 engines designed originally for the Dodge and Plymouth Neon compact car. These engines were loosely based on their predecessors, the Chrysler 2.2 & 2.5 engine, sharing the same 87.5 mm bore. The DOHC head was developed by Chrysler with input from the Chrysler-Lamborghini team that developed the Chrysler/Lamborghini Formula 1 V12 engine in the early 1990s. Beginning in 2005, these engines were phased out in favor of the new World engine built by the Glo
