In the 1960s, model kit building was a huge hobby. Kids built plastic kits of planes, tanks, race cars, space ships, creatures from scary movies, you name it. Before baseball card collecting, Pokémon, and video games, model kit building was one of the most popular hobby activities. Car and airplane kits were the most popular, and among the car kits, muscle cars, as we know them today, were one of the most popular categories. Many owners of real muscle cars today were not old enough to buy them when the cars were new, of course. Yet kids of the 1960s and 1970s worshiped these cars to an extent completely foreign to kids today. If you couldn't afford or were too young to buy a muscle car back then, what could you do? For many, the next best thing was to buy, collect, and build muscle car kits from a variety of kit companies. Hundreds were made. Many of these kits have become collectible today, especially in original, unassembled form. Although people still build kits today, there is a broad market for collectors of nostalgic model kits. People love the kits for the great box art, to rekindle fond memories of building them 40 years ago, or even as a companion to the full-scale cars they own today. Here, world-leading authority Tim Boyd takes you through the entire era of muscle car kits, covering the options, collectability, variety availability, and value of these wonderful kits today. Boyd also takes you through the differences between the original kits, the older reproduction kits, and the new reproduction kits that many people find at swap meets today. If you are looking to build a collection of muscle car kits, interested in getting the kits of your favorite manufacturer or even just of the cars you have owned, this book will be a valuable resource in your model kit search.

Just the '50s, man! Whether you were sporting bobby socks, a flat-top, or a ducktail, the 1950s were just "boss" man, especially if you were digging cars. C'mon Daddy-O, has there ever been anything cooler than the ultra-high-rise fins on a 1959 Cadillac, the "port hole" windows on a '57 T-Bird, or the blinding chrome on an early-'50s Buick Skylark? There may never be another time that rivals the 1950s when it comes to automotive excellence, and the cars from that glorious decade seem as popular today as they were then, when sales records seemed to fall every seasons. In Just the '50s, we salute the magical machines that seemed to come from every automaker of the day. With more than 30 feature stories and in-depth profiles, the publishers of Old Cars Weekly, Old Cars Report Price Guide and the website oldcarsreport take a trip back in time to revisit the great machines of the 1950s, and the people that love them.
