Why Defense In Depth Is Not Good Enough - CloudMask

~~Defense In Depth An Impractical Strategy For A Cyber World~~

Expand/Collapse Synopsis. Businesses and Information Technology Security Professionals have spent a tremendous amount of time, money and resources to deploy a Defense in Depth approach to Information Technology Security. Yet successful attacks against RSA, HB Gary, Booz, Allen & Hamilton, the United States Military, and many others are examples of how Defense in Depth, as practiced, is unsustainable and the examples show that the enemy cannot be eliminated permanently.

managerial cost make defense-in-depth impractical to fully implement (Small 2011), because massive unnecessary efforts might be wasted on irrelevant attack vectors and security activities. With limited resources, system wide defense-in-depth provides only awide but low-level defenseacrossthenetwork, which might be able to stop sophisticated attackers.

~~Defense in depth vs. Critical Component Defense for -~~

Prescott takes a very interesting and informative view on defense in depth in this book - he describes on how IT security traditionally is inefficient its approach to security fors its critical infrastructure - he put in a great amount of thought into why traditional models of defense in depth fail and then turns around and describes how to appraoch the problem in a more mature manner...
