Up ...

There are countless Java courses, tutorials, articles, and  
material about Java available online, but for some, having a  
book is still a necessity to learn. Programming from the  
Ground Up uses Linux assembly language to teach new  
programmers the most important concepts in  
programming.

Java Programming: From The Ground Up: Ralph Bravaco, Shai ...

Java Programming: From the Ground UP gets bogged in the details. Of the top, I would say Java All-in-one Desk Reference is an equal if not better. Though both get very much into the essence of OO Oriented Programming, Java All-In-One is even better when it comes to what it has to accomplish in the Database World.
