A Discussion About CRT Color Television Circuit / PCB ...

The technical standards for modern television, both monochrome (black-and-white) and colour, were first established in the middle of the 20th century.Improvements have been made continuously since that time, and television technology changed considerably in the early 21st century. Much attention was focused on increasing the picture resolution (high-definition television [HDTV]) and on ...

television (TV) | History, Technology, & Facts | Britannica

1971, 17 inch Ferguson model 3712 (I think) cost £178. It was quite a nice set, four push-button tuner (BBC1 BBC2 ITV and \*) and On/off, volume, brightness and colour (contrast was round the back) The only problem was an adjustment of the line hold and re-adjustment of grey scale and convergence after a couple of years.
