At Ever After High, an enchanting boarding school, the children of fairytale legends prepare themselves to fulfill their destinies as the next generation of Snow Whites, Prince Charmings and Evil Queens . . . whether they want to or not. Each year on Legacy Day, students sign the Storybook of Legends to seal their scripted fates. For generations, the Village of Book End has whispered that refusing to sign means The End - both for a story and for a life. As the daughter of the Evil Queen, Raven Queen's destiny is to follow in her mother's wicked footsteps, but evil is so not Raven's style. She's starting to wonder, what if she rewrote her own story? The royal Apple White, daughter of the Fairest of Them All, has a happy ever after planned for herself, but it depends upon Raven feeding her a poison apple in their future. What if Raven doesn't sign the Storybook of Legends? It could mean a happily never after for them both.

There is an increasing trend in teachers using graphic novels to get their students excited about reading and writing, using both original stories and adaptations of classic works by authors such as Homer, Shakespeare, and the Brontes. However, there is surprisingly little research available about which pedagogies and classroom practices are proven to be effective. This book draws on cutting-edge research, surveys and classroom observations to provide a set of effective methods for teaching with graphic novels in the secondary English language arts classroom. These methods can be applied to a broad base of uses ranging from understanding literary criticism, critical reading, multimodal composition, to learning literary devices like foreshadowing and irony. The book begins by looking at what English language arts teachers hope to achieve in the classroom. It then considers the affordances and constraints of using graphic novels to achieve these specific goals, using some of the most successful graphic novels as examples, including Maus; Persepolis; The Nameless City; and American Born Chinese and series such as Manga Shakespeare. Finally, it helps the teacher navigate through the planning process to figure out how to best use graphic novels in their own classroom. Drawing on their extensive teaching experience, the authors offer examples from real classrooms, suggested lesson plans, and a list of teachable graphic novels organized by purpose of teaching.

Reaching Reluctant Young Readers features 150 middle-grade books. Each profiled title has the potential to hook the reluctant reader and lure them to read the entire book. To specifically encourage elementary and middle-school-age reluctant children to read, there is first a pitch to get the reader's attention. That is followed by a short reading passage to "set the hook" and encourage the young person to read the rest of the book on their own. Further, the book contains several hundred additional recommended titles. The books selected for this collection were chosen following the criteria of reluctant reader books created by the Quick Picks committee sponsored by the Young Adult Library Services Association. While these guidelines were designed for young adult books, they also work well for middle-grade books. The criteria include: clear writing (no convoluted long sentences with sophisticated vocabulary), high interest "hook" in the first few pages, well-defined characters, interesting plot, and familiar themes.
